TRUST WHAT TIME HAS SANCTIONED The maxim that the voice of the people is the vice of the divinity, may, in a me cases, be open to could but the testimony of hone-t and enlightered with esses extending through a se ries of years and all to the same purport worths of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Biters as an antidote and cure for many ailmen s is based. During the twenty years that it has been before the world inumer able preparations, intended to compete with it, have gone up like rockets, and come down the extinguished sticks. Meanwhile the progress of that incomparable tonic has been switt and steany-always upward and onward like the eagle's fight its introduction produced a revolution in therapeutics, and it proved to be one of those sa utary revolutions that cannot go backwards. To day Hostetter's Bitte s is one of the most popular remedies in christendom, and commands a larger sale than any other medicinal preparation, domestic or imported, on this side of the Atlantic As a cure for dys pepsia, bivious disorders, nervous affections, general debility, and as a preventive of epidem ic tevers, it takes precedence of every other remedy. This tact should teach the ambitous country dealers who endeavor to foist their local abortions on the pub ic in its stead, how futile their small attempts to esjole the community must necessarily be.
